ReCharge PEMF units are the ONLY high power PEMF manufacturer to be safety tested having UL / CL certification, manufactured in an ISO 13485 Certified Facility, is conducting University research, and is made in the USA. And this is the only brand approved for sale to local, state and federal agencies, Department of Defense, US Navy / Marine Corps.

High Intensity PEMF creates an electric field within a magnetic coil and requires the use of a capacitor to store energy, which takes some time to build up. It will then discharge that stored energy in a microsecond. The frequency of discharge is related to the power setting machines. If you increase the power, the frequency is decreased due to the capacitor limits.

Other low power units (often called "Hummers") use a high frequency oscillator with extremely low power output. The power output is so low; patients do not feel these fast oscillations passing through the body. This results in very long treatment times with little noticeable benefits. With our High Power PEMF, you feel it right away, so there is no doubt its working, you feel the pulse immediately deep within the body. This allows for the shortest treatment times & deeper tissue penetration. ReCharge

PEMF is the only High Power PEMF Device using Dual Coils delivering **Dual Pulsing** offering both low power and high-power Pulsed Electro Magnetic Fields running simultaneously so a second 10Hz baseline low power pulse is always running in addition to the higher intensity PEMF you set (so you get two pulses running simultaneously or **DUAL PULSING**).

Two High Power Machines in One Case - Each with TWO 15,000 Gauss Units

Our newest technology unit is All-Digital (No Spark Chamber, No maintenance) Each unit has **TWO INDEPENDENT 15,000 Gauss machines in one**, allowing two attachments to run at the same time and can be synchronized to have both attachment pulse at the same rate at the same time. **ReCharge Model # 10 DoD Tactical Dual TOTE HP or Clinical DESKTOP**

High Power
Digital / Solid State
No Maintenance Required

PORTABLE Tactical Tote

CLINICAL DESKTOP

ReCharge Chiro Clinical Package - Comes with (1) Butterfly 7" Loop, (1) 14" loop, (1) Paddle, (2) 18x24" Body Pads

- 10 min. timer buttons
- **Frequency:** 50 – 60 Hz
- Voltages: 110V To 230V
- Adjustable intensity 1-10
- Quick connect ports
- Portable weighs only 18 Lbs (13.25" x 16.75" x 7")

Treat Two Patients at a time or Two Body Part

- 3 year warranty
- Made in USA
- UL/ CL Certification
- Payment Terms Net 30 days- Lead Time is 45 days
- No HazMat Issues

Note: Section 179 allows business owners to **deduct the full purchase price** of qualifying equipment and software that was purchased or financed during the tax year, rather than depreciating it over the asset's useful life.

Clinical Package MSRP \$25,500 + CA Tax & Shipping Estimate **\$568 /Month 60 Months**

*Approved for Military Purchase thru Tier 1 DoD Vendor

Equipment Purchase / Preferred Bank Finance Company Stearns Bank 800-247-1922 Ext. 3199
